## EXPERIENCE

### Web Developer Cal Poly Corporation

Oct 2018 - Present

Interviewed stakeholders to collect feedback and better design/develop a new nutrition/menu management system for over 15 on-campus restaurants  
Helped develop a new style guide and pattern library for large corporate site

### Engineering Intern Dasher Technologies

May - August 2017

Used Javascript/NodeJS to build a custom Outlook 365 plugin to serve calendar data to the ERP system, allowing employees to easily coordinate meeting times

## PROJECTS

### Tinder Reconnect Product Management/ Design

tinder.tylerrathod.com

Wrote a survey and conducted user research to understand Tinder users' frustration regarding lack of engaging conversations  
Created product roadmap, wrote user journey and stories  
Developed high-fidelity interactive prototypes

### Loop Winner: Adobe + IBM iX Creative Jam

Competed against 50+ schools as part of a team of 5 to design a working prototype in 48 hours  
Defined user journey, created wireframes, and developed high-fidelity prototype with animations

### Timefillr UX/UI Design Sprint

timefillr.tylerrathod.com

Conducted a solo Design Sprint to develop a prototype app for alleviating boredom  
Utilized user maps, rapid iteration, and user interviews to develop a working prototype in 5 days

## EDUCATION

### California Polytechnic San Luis Obispo

B.S. Information Systems  
*Junior*
