EXPERIENCE

Junior Web Developer
Cal Poly Corporation

Oct 2018 - Present

Designed and developed both the front and back-end for a nutrition/menu management system for over 15 on-campus restaurants
Used jQuery, Datatables, and Airtable's Javascript API

Engineering Intern
Dasher Technologies

May - August 2017

Built a custom Outlook 365 plugin to serve calendar data to the ERP system, allowing employees to easily coordinate meeting times

IT Intern
Cloudera

May - August 2016

Utilized Jira daily to resolve IT tickets.
Assisted in the implementation of web-based asset management system Oomnitza

PROJECTS

Tinder Reconnect
Product Management/Design

tinder.tylerrathod.com

Wrote a survey and conducted user research to understand Tinder users' frustration regarding lack of engaging conversations
Created product roadmap, wrote user journey and stories
Developed high-fidelity interactive prototypes for a feature to encourage users to reengage with previous matches

Timefillr
UX/UI Design Sprint

timefillr.tylerrathod.com

Conducted a solo Design Sprint to develop a prototype app for alleviating boredom
Utilized user maps, rapid iteration, and user interviews to develop a working prototype in 5 days

EDUCATION

California Polytechnic
San Luis Obispo

B.S. Information Systems
Junior
